

About One&All

In Australia around 18% of people live with a disability, around 20% experience mental health challenges. One&All exists to raise the bar in disabilities and mental health services and pioneer a shift away from focusing on disability, and instead focuses on the abilities, accomplishments and potential of each person.

We bring together individuals, families, carers, creatives, and artists who are passionate about creating lasting change for people with disabilities and mental health challenges, by facilitating elevation of the body, mind, and soul. **As a not-for-profit and charity, we offer the One&All Hub up for hire with the intention to create awareness, raise funds and harness community involvement.**

By fostering a caring, inclusive community, we aim to deliver positive change in the perception of disability and mental health in society. As a not-for-profit we rely heavily on the funding received from Hub Hire to develop our innovative and dynamic workshops that empower individuals to create, socialise, up-skill and experience life wholeheartedly.

When you hire the One&All Hub, you are directly supporting our delivery of services to people with disability and mental health challenges; 100% of the profit goes back into the running of One&All Hub.
